RII30920 Certificate III in Civil Construction

Spray Seal Crew Specialty

Certificate III in Civil Construction Bituminous surfacing is focussed to workers in the road pavement industry, particularly in the spray seal sector.

This course starts by applying underpinning knowledge around safety, organisation, plan reading and general construction site tasks while providing an opportunity to gain Nationally accredited plant operator competencies. This course will suite experienced workers and those new to the industry as it focusses on building workers up from labouring positions to plant operators and even supervisors/

Students will learn all of the basics of road construction before focussing on particular bituminous technologies and techniques.

Usually completed under the NSW apprenticeship scheme, we can accommodate fresh apprentices through to experienced existing workers looking to get recognition for their experience. Elements of this course can also be offered as short courses to meet specific needs

What we can offer:

- Elective units have been selected to suit the relevant to the work environment and the qualification, maintain the integrity of the AQF alignment and contribute to a valid, industry-supported vocational outcome. We have chosen the units below to suit most workplaces,

students will have the opportunity to complete 8 core units plus 17 elective units. The below selection reflects what we offer however some flexibility may be exercised in the electives after a discussion with us.

Unit Number	Elective Type	Unit Title
RIIBEF201E	Core	Plan and organise work
RIICCM201E	Core	Carry out measurements and calculations
RIICCM203E	Core	Read and interpret plans and specifications
RIICOM201E	Core	Communicate in the workplace
RIIWHS201E	Core	Work safely and follow WHS policies and procedures
RIISAM203E	Core	Use hand and power tools
RIISAM204E	Core	Operate small plant and equipment
RIIRIS301E	Core	Apply risk management processes
Fixed electives		
RIICCM202E	D	Identify Locate and Protect underground services
RIICCM205F	C	Carry out manual excavation
RIICCM206E	D	Support Plant Operations
RIICCM207E	A+B	Spread and compact materials manually
RIICBS202E	A+B	Hand spread asphalt
RIICBS203E	C	Safely handle bituminous materials
RIIRIS202E	C	Respond to site based spills
RIIIMG301E	C	Maintain site records
RIISAM201E	C	Handle resources and infrastructure materials and safely dispose of nontoxic materials
RIIWHS302E	C	Implement traffic management plans (Credit Transfer Only)
BSBOPS304	C	Deliver and monitor a service to customers
BSBXTW301	C	Work in a team
BSBTWK301	C	Use inclusive work practices
Choose 4 from this group-		**AT LEAST 2 MUST BE GROUP B ELECTIVES. Circle your choices in the left column**
RIICBS307E	**B**	BITUMEN SPRAYER Conduct Bitumen Sprayer Operations National Ticket
RIICBS312E	B	BITUMEN TANKER Conduct Bitumen Tanker Operations National Ticket
RIICBS309E	B	Conduct Self Propelled Aggregate spreader Operations National Ticket
RIICBS315	B	Roll aggregate in spray seal operations
RIICBS402E	B	Supervise the application of bituminous sprayed treatments
RIIHAN308F	Other	LOAD UNLOAD PLANT National Ticket
RIIMPO317F	Other	ROLLER Conduct Roller Operations National Ticket
RIIMPO338F	Other	SKIDSTEER Skid steer Loader with attachments National Ticket
RIIMPO304E	Other	LOADER Conduct wheeled Loader operations National Ticket

Cost: We only offer this qualification under the NSW Smart & Skilled traineeship model which is currently fee free to eligible students. We do not offer this qualification under a paid (fee for service) model.
This allows students up 3 years to get through the necessary learning and experience needed to pass.
Experienced operators may proceed through this course in as little as 12 months or faster with RPL.
We can offer part qualification (Machinery competencies) either funded or fee for service, give us a call on 1300 28 28 13.

Support:
Students will have access to up to 3 highly skilled Trainer / Assessors and will provide extra support if a physical or learning disability may impede their ability to complete this course in its usual form of delivery. This will be determined on a case-by-case basis prior to enrolment.

Delivery:
This course is delivered in a mixed mode,
Theoretical components are primarily completed either on line or in face to face workshops.
Practical assessment is undertaken in the actual workplace under work conditions. For this reason, it is critical that students have access to necessary facilities to enable this.
Where face to face visits are not possible we offer digital session with our trainers (phone/zoom/Microsoft teams).

RPL:
Recognition of Prior Learning is available on request for this course. This is assessed on a case by case basis. RPL is when you feel you may already have certain skills that are part of this course and you can provide evidence of that. Our assess Elective ment staff will review your evidence and determine if it meets requirements of the training package.

CT (Credit Transfer):
Credit transfer can be applied for at the enrolment phase. CT is when you have completed the exact unit previously or a superseded version of that

unit which is equivalent to the current version. For a CT to be granted you must be able to provide a copy of your statement of attainment/certificate and grant Signature Learning and Development to verify it authenticity with the RTO (provider) that issued it.

Learning Resources:
We can offer paper copies of all student resources if requested however it is our preference that students access resources through our online student portal. Offering digital copies allows us to maintain the currency of our resources and helps us meet our business ambitions of one day being paperless and reducing our carbon footprint. Environmentally sustainable practices are a key business priority for Signature Learning and Development.
